Our town farm account foots up more than what we were in hopes it would, and a little explanation on the matter might not come amiss. Last year, we had a good piece of corn; this year, the piece we had fixed for corn was so wet we could not plant it, and the wet spring not only prevented us from raising corn but injured our potato and bean crop nearly one-half.

We have used a large amount of grain on the farm this year, and the increase in the price of it makes the bill very large. We were unable to get any wood cut, last winter, and so did not have any dry wood to sell as we were in hopes to do. The past season has been a bad one for producing cream, as all cream producers can testify, and that makes a shortage in our most important resource.

Our Overseer has made marked improvement on the barn and has made permanent improvements on the tillage land, breaking and removing rocks and laying under drain. And although it has been a bad year on the farm, our pauper account off the farm has been very light.

We decided to strike out the M. Cummings house which was reckoned in as town property at a valuation of fifty dollars.

# SCHOOL REPORT

---

*In compliance with law and a long established custom I respectfully submit my annual report of the condition and progress of the schools in the town of Greenwood for the school year just passed.*

Generally speaking our schools have been very satisfactory. We have been very fortunate in securing good teachers and teachers of experience with but few exceptions. But for all that we have had some schools which have not been what they should have been, and I find from experience that it is almost impossible to procure teachers in every case that will always give good satisfaction. Then again a teacher will teach a very good school in one place and a very unsatisfactory one in another. And therefore I have come to this conclusion:—that a person must know the requirements of the school and the capabilities of the teacher to place in each school in order to secure the best results. It is a noticeable fact that the schools which show the most improvement are the ones in which the parents have shown the most interest in school work and I think that the parents' influence if used in the right direction is a great help to the teacher and of much good to the school.

Now I want to urge the parents to visit your school and by so doing show to the teacher and scholars that you have an interest in their work and welfare. I am certain it means more to teacher and school than you might suppose at first thought. Try it just once and I am sure you will go again.

We have made some small repairs on nearly all our school buildings the past year, have painted in No. 1 two coats inside and outside, Nos. 3, 10, 11 one coat outside, and finished the one in No. 3 inside with wood filler and varnish, have put some new blackboards

in some of our houses and still need some more. Our houses now are in good respectable condition, but the ones in Nos. 2 and 7 should be looked after this year. The one in No. 2 needs sheathing inside and painting outside.

In closing I wish to extend my sincere thanks to the members of the school board for their desire to help and co-operate with me in doing that which seemed to be best for the majority of our scholars; to the teachers, for their courtesy and evident desire to do their best work; to the scholars, for their kind words and greetings, and to many of our citizens for their cheerful words and the confidence they have placed in me in the management of our school affairs.

Respectfully submitted,

G. W. RICHARDSON, Supt. of Greenwood.

Your School Committee make the following recommendations for the coming year:

For Support of schools.....	\$850 00
Purchase of books.....	100 00
Repair of school buildings.....	100 00
Purchase of appliances.....	25 00

We would also recommend that an article be inserted in the warrant for the annual town meeting to see if the town will authorize the school committee to maintain a school in Dists. No. 8, 9, and 11, or otherwise.
